"THE NEWS AT NINE"

The Unionist Member of Parliament for Londonderry in Northern Ireland, Mr. Joe Burns, says Communists and Anarchists are responsible for the Unrest in Northern Ireland. In an interview in Durban this evening, Mr. Burns said that Communists were supporting the I.R.A. in their efforts to overthrow the Government. He added that this was being done with the knowledge of the Prime Minister of Southern Ireland and with the use of American weapons: Mr. Burns continued:

"First of all you had the I.R.A., you had the Nucleus, you had these people who have been trying to do away with the constitution and unite Ireland for years, but this was the foundation, and then the communists were able to come in and take over (perhaps 'take over' is the wrong word, but at the same time they have been very very active) and we have at the present time a number of people from France and Germany, who are now in jail in Northern Ireland, and these people who are in the midst of the troubles in Berlin, Paris and Chicago, and other parts of the World, and they are worldwide anarchists, people that are well known.

Now these people are not the least bit interested in civil rights or the political set up in Northern Ireland, and I think it is true to say that the I.R.A., while they are the basic force and nucleus of the whole thing, are getting a tremendous amount of assistance, and I believe - although I could not prove this - that there is a very considerable amount of money being given to these people by the communist party .... and I am also satisfied beyond doubt that a tremendous amount

of money has been pouring in to them from America, even in the way of Guns, Ammunition and this type of thing, because these are being shipped, there's no two ways about it.

Prime Minister Jack Lynch of Southern Ireland, when the difficulties in the Bogside arose, saw fit to move his troops towards the border, set up military field ambulances, and he knew very well that there was a movement of I.R.A. across the border.

That was one of the things he was aware of, he didn't do anything about it, notwithstanding the fact that we have been on friendly terms insofar as we've been continuing to trade with one another, and the economic situation with goods going across the border, notwithstanding that, he did everything to hurt Northern Ireland at that particular time."
